**I'm running or helping run:** (check one)

**A Mini Experiment** is designed to be a personal challenge for the lone Rabbit. See how many games you can get others to play, within the time-frame of an event (ranging from a short social gathering to a multi-day convention). Ideal if your audience is made up of non-gamers.

**A Little Experiments** is designed to be an organized, scheduled, advertised, public event run by at least three Rabbits, who together know all nine core Looney Labs games. Venues can be stores, single- or multi-day conventions, etc.

I've submitted my event report at MadLabRabbits.com  
For PDFs of documents, calendars and other useful stuff, visit  
LooneyLabs.com/experiments/. **Thanks for being a Rabbit!**
